

### **Prize „school and Economy“ 2004**

The prize for 2004 was for the pioneering concept in Job- and Life orientation. Together with two further schools we worked with the support of the Provinzial Insurance Company on a fortifying seminar for the 7<sup>th</sup> year. In May 2005 the pilot phase started. In this seminar the students learnt how to recognize their strength in a positive view of their own ability. For this conception the three schools, we and Stapelholm School in Erfde and St.George School in Heide – were awarded together 1500 € as first prize for Initiative für Beschäftigung-Regionales Netzwerk Schleswig-Holstein 2004.
